New Country Data Updated

Note: WHO recommends using the following categories to describe transmission patterns at national and sub-national levels (wherever possible) to guide decisions for

| Category number | Category name          | Definition                                                                                                                                                                                                                                                                                                                                                  |  |
|-----------------|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| 1               | No cases               | Countries/territories/areas with no cases                                                                                                                                                                                                                                                                                                                   |  |
| 2               | Sporadic cases         | Countries/territories/areas with one or more cases, imported or locally detected                                                                                                                                                                                                                                                                            |  |
| 3               | Clusters of cases      | Countries/territories/areas experiencing cases, clustered in time, geographic location and/or by common exposures                                                                                                                                                                                                                                           |  |
| 4               | Community transmission | Countries/area/territories experiencing larger outbreaks of local transmission defined through an assessment of factors including, but not limited to:  - Large numbers of cases not linkable to transmission chains  - Large numbers of cases from sentinel lab surveillance  - Multiple unrelated clusters in several areas of the country/territory/area |  |
